

KU Consulting Services

Pricing and time usage:

1 hour consultation	\$150
---------------------	-------

30-45 minutes	Direct consultation with clinical team member via Teleroo
15-30 minutes	Clinician reviews videos, information prior to consultation, material development (e.g. visual supports), coaching, and recommendations for next steps

Services can be billed under some health care benefits including: Speech Language Pathologist, Psychologist, Social Worker, Occupational Therapist

Clinical consultations cover the following areas:

- Communication (e.g. difficulty understanding language, difficulty using words or expressing him/herself, strategies to support non-verbal children, etc.)
- Social skills (e.g. making friends, joining conversations, sharing, taking turns, etc.)
- Building play skills (independently and with peers/siblings)
- Self-care skills (e.g. hair brushing, dressing, bathing, etc.)
- Toileting/toilet training
- Picky eating (expanding food repertoire)
- Calming
- Managing challenging behaviours (e.g. tantrums, behaviours around completing daily routines, supporting your child to wait, etc.)
- Support with transitions (e.g. major transitions such as a move or back to school, daily transitions such as transitioning from preferred activities)
- Fine motor development in routines (e.g. utensil use)
- Supporting your child to engage in the community (e.g. during family errands, extracurriculars, etc.)
- Mental health (supports for child, parent, entire family)
- Autism
- If you are interested in consultation in an area that's not listed, please contact us at info@kidsuncomplicated.com to inquire

As leaders in virtual care, we aim to support our communities more broadly. We provide direct services, but we also want to collaborate with our community, clinics, and other business. If you would like more information on how we can support your business, school, clinic or other organization, please contact info@kidsuncomplicated.com
